## Functions through VEMS Notifications

Step	Step name and description
1	<b>View Activity</b> – Here you can check the activity of the customer over the last 4 hours. We will be adding more charts over the next few months.
2	<b>View Notifications</b> – This allows you to review and acknowledge alert notifications and to view previously acknowledged notifications.
3	<b>Edit my details</b> – This allows you change your personal details and your password. Use it if necessary.

## Log in

VEMSNotifications

Welcome to VEMS Notifications

Enter your email address

Enter your password

Login

Reset Password

By using the VEMS mobile application you confirm your agreement to the terms of the VEMS Pilot

[Privacy Policy](#)

[Pilot Participant Agreement](#)

- Key in your **Email** address . Move the mouse cursor down to the **Password** or tab out of the email field.
- Click on the **Log In** button and this should take you to the **Notifications Home** screen.

### What can go wrong?

You mis-key the user Id or the password.

VEMS will tell you that the details are wrong. Try again.

JAMES JOHNSON

Mary Bradford

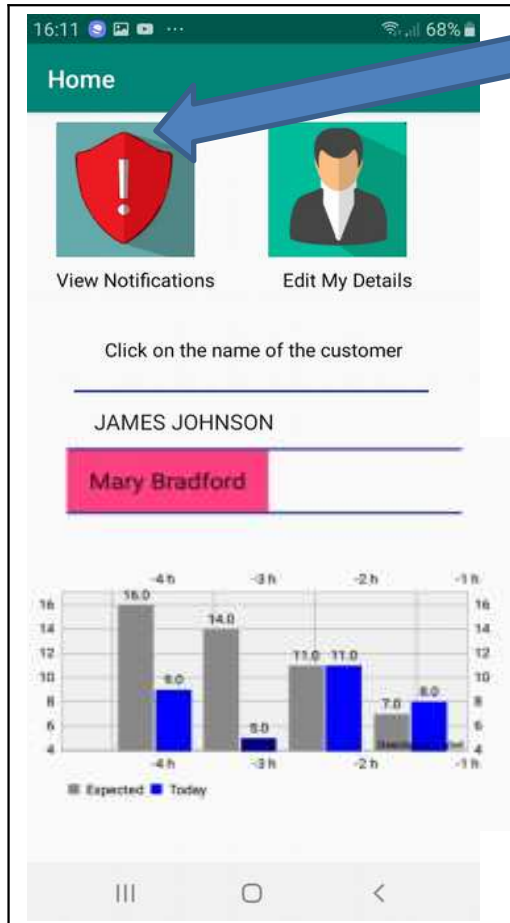

Time	Expected	Today
-4h	15.0	8.0
-3h	14.0	5.0
-2h	11.0	11.0
-1h	7.0	8.0

- **View Notifications** – This is where you review and manage the notifications alerting you that something might be amiss with the customer.
- **Edit My Details** – used to change your OWN details and update your password.
- **View Activity** -
  - First select the customer from the list.
  - VEMS displays a graph showing the expected number of the customer movements for a specific hour, (in grey) on a particular day of the week, against the actual movements (in blue). The graph displays the previous 4 hours.

## View Notifications

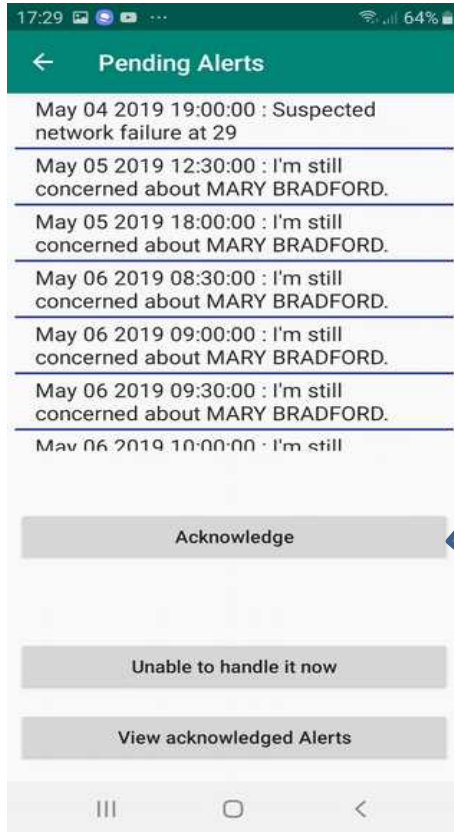

• **View Notifications** – This is where you review and manage the notifications alerting you that something might be amiss with the customer.

## Acknowledge Alert

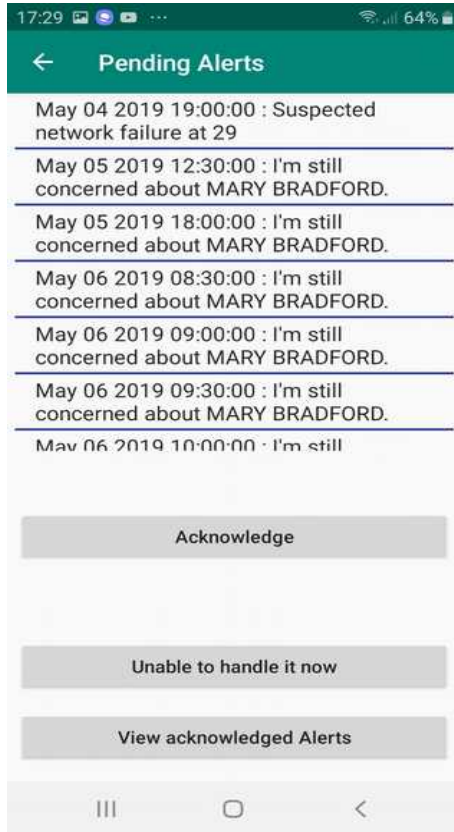

- When the Monitoring system gets 'concerned' it sends notification alerts to the mobiles of the nominated contacts.
- Currently the alerts are issued in the order in which they were created.
- To acknowledge an alert, **select the row** that represents the alert and then click **Acknowledge**
- This action will stop alerts being issued for a period of time, but does not lower the level of concern. VEMS will retain and increase the concern level until movement is detected by the sensor(s) unit(s).

## Unable to handle it now

- If you are notified of an alert, but you are unable to respond, you should click the button **Unable to handle it now**.

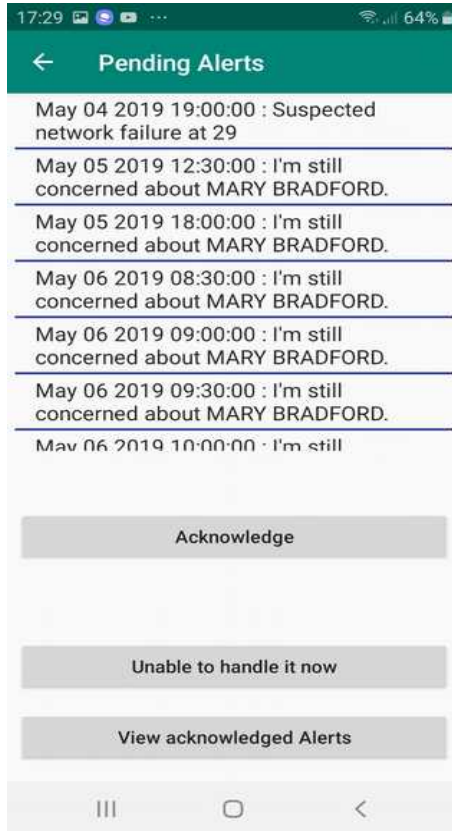

- This will ensure that someone else will be notified.

## View Acknowledged Alerts

- If you want to review previous alerts and check who answered them, click on **View acknowledged Alerts**.
- This will take you to the next screen.

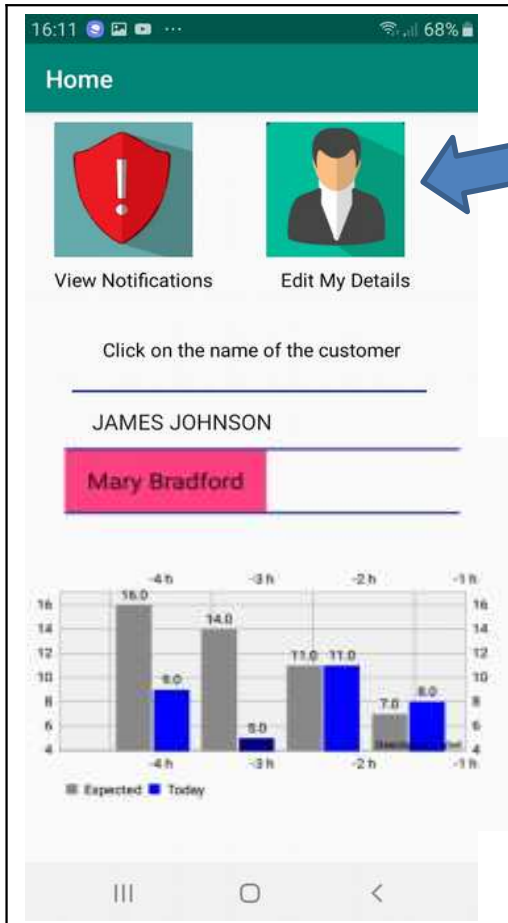

## Edit My Details

- Edit My Details – used to change your OWN details and update your password.
